Reason for Allowance

The following is an examiner's statement of reasons for allowance: the applicant's amendment filed on 02-03-04 overcomes the technical deficiencies and the prior art of record.

The prior art reference of records fails to teach or fairly suggest an oscillator device comprising: an oscillation NPN transistor and a PNP buffer amplifier wherein, the NPN and the PNP transistors are connected in cascode between a power supply; a collector of the NPN oscillation transistor is connected to a power terminal and is grounded via a capacitor; a base of the PNP buffer amplifier transistor is grounded via a capacitor; the collector of the PNP transistor is AC-connected to an output terminal as called for in claim 1 and 6. Therefore, claims 1-10, 17 and 18 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
